New *3-Wrap* PTFE Thread Sealant Creates Dependable, Leak-Proof Joints

Mentor, OH – New *3-Wrap*, a premium line of PTFE thread sealing tape designed to create dependable, leak-proof joints with just three wraps around threads, is introduced by Clean Fit Products, a division of The Mill-Rose Company.

3-Wrap is a full or maximum-density PTFE tape designed for professional contractors. Unlike most thread sealing tapes, *3-Wrap* is manufactured without stretching. Stretched tape is more porous and requires more “wraps” to obtain an effective seal. *3-Wrap* thread sealant is offered in two formulas for water lines and gas lines and is color-coded red for water/liquid applications and yellow for gas applications. The new tape is offered in 1/2”, 3/4” and 1” widths for different size fittings and is available at leading wholesalers nationwide.

Clean Fit is a division of The Mill-Rose Company, a leading manufacturer and distributor of brushes, abrasives, PTFE sealants and accessories used by professional contractors and the D-I-Y market. For further information write Clean Fit Products, 7310 Corporate Blvd., Mentor, Ohio 44060. Telephone 1-800-321-3598, fax 1-440-255-1072, e-mail info@CleanFit.com or visit the company’s web site at www.CleanFit.com.
