**For further information please contact:** Tim Knudsen

*For Immediate Release - March 31, 2004*

## **New ColdShield™ Protects Surfaces from Heat Damage During Soldering & Welding**

Mentor, OH – ColdShield, a new thermal barrier that protects surfaces from heat damage during soldering, welding and brazing operations, is now available from the Clean-Fit Products division of The Mill-Rose Company.

ColdShield can be used wherever heat protection is required. Typical applications include protecting valve seals and seats during soldering; protecting soldered joints from loosening when soldering new joints; and preventing distortion of metal caused by heat. ColdShield effectively protects metal, wood, plastic, rubber, wire, insulation, drywall and more.

ColdShield is non-corrosive, non-toxic, 100% biodegradable and available in a 32 oz. spray bottle or wide-mouth jar at leading wholesalers. The spray bottle allows for convenient application of ColdShield in hard-to-reach areas. The wide-mouth jar contains a thicker formula of ColdShield for higher-temperature applications.

Clean-Fit Products is a division of The Mill-Rose Company, leading manufacturer and distributor of brushes, abrasives, PTFE sealants and accessories used by professional contractors and do-it-yourselfers. For further information contact Clean-Fit Products, 7310 Corporate Blvd., Mentor, Ohio 44060. Telephone toll-free 800-321-3598, fax 440-255-1072, e-mail [info@CleanFit.com](mailto:info@CleanFit.com) or visit the company's web site at [www.CleanFit.com](http://www.CleanFit.com).
