FOR IMMEDIATE RELEASE **February 21, 2022**

Mill-Rose Introduces Specially-Formulated Blue Monster® Food-grade Anti-Seize Lubricant

Mentor, OH – [Blue Monster® Food-grade Anti-Seize](#), a premium-grade lubricant designed for use where incidental food contact is possible, is now available from Clean-Fit Products, a division of The Mill-Rose Company. The new compound is a non-drying lubricant that maintains its anti-seize capabilities at high and low temperatures, protects against rust and corrosion, water and steam, and allows for easy disassembly.

Due to its outstanding lubricity characteristics with PTFE, Blue Monster[®] Food-grade Anti-Seize Lubricant prevents seizing and galling, reduces torque required to loosen joints, and is effective to 1800°F.

Blue Monster[®] Food-grade Anti-Seize Lubricant is made of ingredients meeting FDA requirements and is NSF/U.S.D.A (H-1) registered, and Kosher approved. This premium compound does not contain any solvents, metal, lead, graphite or clay fillers.

Applications include food processing machinery to lubricate stainless steel fittings, bushings, flanges, headers, nuts, screws, studs, threaded surfaces, pipes, plugs, and manifolds to prevent seizing and galling of surfaces. Not for use on oxygen. Avoid direct contact with food during application.

Blue Monster[®] Food-grade Anti-Seize Lubricant is available in 9-ounce and 18-ounce cans with an applicator designed into the container's lid, and sold at leading PHC supply houses. Blue Monster products are offered exclusively by Clean-Fit Products, a division of The Mill-Rose Company. Mill-Rose is the world's leading supplier of PTFE thread sealants and largest manufacturer of twisted-in-wire brushes in the U.S.A.

For further information contact Clean-Fit Products, 7310 Corporate Blvd., Mentor, Ohio 44060. Telephone 1-800-321-3598, fax 1-440-255-1072, e-mail info@cleanfit.com or visit www.cleanfit.com.
