FOR IMMEDIATE RELEASE – July 14, 2014

New Blue Monster[®] Copper Anti-Seize Thread Sealant Designed for Extreme Conditions

Mentor, OH – Blue Monster[®] copper anti-seize lubricant and thread sealant, a new, specially-formulated compound designed to seal metal pipe threads at temperatures up to 1800^oF and in high-pressure environments, is now available exclusively from Clean-Fit Products, a division of The Mill-Rose Company.

Blue Monster[®] copper anti-seize compound prevents pressure leakage and seizing

resulting from high-temperature, freezing, heavy loads, corrosion and vibration. This copper-based compound can be used on all metal pipe threads and provides easy assembly and disassembly of bolts, plugs, studs, and flanges long after initial assembly. Blue Monster[®] copper anti-seize compound will not bleed, separate or settle and is also effective when used on high-pressure corrosive systems.

Blue Monster[®] copper anti-seize lubricant and thread sealant compliments an expanded line of Clean-Fit Products' thread sealing tapes and compounds designed for harsh environments, including copper and stainless steel thread sealing tapes, and nickel anti-seize compound.

Blue Monster[®] copper anti-seize lubricant and thread sealant is offered in 10-ounce and 16-ounce cans with an applicator designed into the container's lid, and is available at leading wholesalers and specialty retailers.

Clean-Fit Products is a division of The Mill-Rose Company, the world's leading supplier of PTFE thread sealants and largest manufacturer of twisted-in-wire brushes in the U.S.A. For further information contact Clean-Fit Products, 7310 Corporate Blvd., Mentor, Ohio 44060. Telephone 1-800-321-3598, fax 1-440-255-1072, e-mail info@cleanfit.com or visit the company's web site at www.cleanfit.com.
