**FOR IMMEDIATE RELEASE**      **December 16, 2020**

## **Eco-friendly Blue Monster® ZERO® VOC Thread Sealant is Ideal for Green Buildings and LEED Projects**

Mentor, OH – [Blue Monster® ZERO®](#), an industrial strength, eco-friendly PTFE-enriched pipe thread sealant with zero VOCs, zero PFOA and zero lead, is now available from Clean-Fit Products, a division of The Mill-Rose Company.

Blue Monster® ZERO® with PTFE is an all-purpose, non-seizing thread sealant that is extremely effective sealing all types of metal and plastic threads carrying water, steam, natural gas, LP and more. With zero VOCs, zero PFOA and zero lead, Blue Monster® ZERO® is ideal for green buildings and LEED projects featuring

environmentally-responsible construction, without sacrificing performance.

Blue Monster<sup>®</sup> ZERO with PTFE is specially formulated for extra lubrication on pipe threads, applies evenly and quickly to threads, works well on-site or on assembly line work, and allows systems to be pressurized immediately after assembly. “Blue Monster Zero is recommended for any environmentally-responsible construction and is extremely effective sealing all kinds of threads,” said John Kirkland, National Sales Manager for Clean-Fit Products.

Recent studies show nearly three in 10 of those polled made an environmentally-conscious decision on a daily basis. “These types of studies factored into our development of Blue Monster ZERO Thread Sealant,” said Greg Miller, President of Mill-Rose. “There is an obvious, fast-growing movement toward healthy, environmentally-conscious behavior, and all of us at Mill-Rose are on board. For the first time in the thread sealant category, Blue Monster ZERO gives the consumer, contractor, wholesaler and retailer an option,” added Miller.

Blue Monster<sup>®</sup> ZERO<sup>®</sup> thread sealant is available in ¼-pint, ½-pint, 1-pint and 1-quart cans with an applicator designed into the container’s lid, and sold at leading PHC supply houses. Blue Monster products are offered exclusively by Clean-Fit Products, a division of The Mill-Rose Company. Mill-Rose is the world's leading supplier of PTFE thread sealants and largest manufacturer of twisted-in-wire brushes in the U.S.A.
