FOR IMMEDIATE RELEASE **September 26, 2006**

Easy-Cut Jaws™ Removes Faucet Mounting Hardware Fast & Easy

Mentor, OH -- Remove steel, brass and plastic faucet mounting hardware from virtually any sink with Easy-Cut Jaws™, a power drill attachment now available from Clean-Fit Products. Ideal for removing corroded faucet mounting hardware or stripped nuts in crowded working areas, Easy-Cut Jaws™ delivers where basin wrenches and other tools fail.

Designed for faucets with 1/2" NPT mounting shanks, Easy-Cut Jaws™ are available in two sizes. The standard 10.5" size is designed for kitchen, bathroom and bar sinks, and also removes kitchen side sprays and counter-mounted soap dispensers. The extended 15.5" size is designed for laundry/utility tubs and extra-deep commercial sink workstations.

Easy-Cut Jaws™ feature a bi-metal cutting head (Rockwell 60 hardness) for long-lasting performance cutting through hundreds of faucet nuts. A plated-steel driver assembly fits 3/8" or larger drill chucks, and a clear polymer chip guard collects cutting chips during use.

Clean-Fit Products is a division of The Mill-Rose Company, a leading manufacturer and distributor of brushes, abrasives, Teflon sealants and accessories used by professional contractors and do-it-yourselfers. For further information, contact Clean-Fit Products, 7310 Corporate Blvd., Mentor, OH 44060. Telephone 800-321-3598 or visit the company's web site at www.CleanFit.com.
