

# Mill-Rose Power-Deuce® Brushes

## Power-Deuce Brushing Tool

Introducing the Power-Deuce®, an *evolutionary* new fitting brush and O.D. tube cleaning brush from Mill-Rose. The Power-Deuce is two brushes in one - so you can clean copper tube and fittings without changing tools! Plus, if your drill quits, you can use it as a hand tool. It's fast and easy - saving time and money.

The Power-Deuce is a self-cleaning brush with rust-proof, stainless steel bristles for plumbing and HVAC projects. The brush actually removes copper residual and any buildup when you switch from a fitting brush to the OD tube cleaning brush. A

heavy-duty ABS housing is impact resistant and protects bristles so they retain their shape and prolongs brush life.

### Two Brushes in One!

Clean fittings and tubing fast! The fitting brush cleans the inside diameter and tube cleaning brush cleans the outside diameter. Always use the Power-Deuce brush in a clockwise direction at a low-speed setting.

The new Power-Deuce Power Pack contains three popular sizes of Power-Deuce brushes plus a Quik-Change chuck adaptor.

### Point-of-Sale Displays and Packaging

Small space. Big profit. Compact point-of-sale merchandisers may be used as a counter, shelf or wall display. The Power-Deuce is also available in a new Power Pack case containing three popular sizes plus a Quik-Change chuck adaptor, and individually packaged in polybags with attractive display graphics. Look for Mill-Rose advertising in leading contractor magazines to build demand for the Power-Deuce!

#### P-O-P Merchandising Display #33021-B:

Attractive 2' x 1' merchandising display contains everything required to build sales of Power-Deuce brushes. Includes colorful display header, yellow pegboard, pegboard hooks, mounting hardware, re-order labels and will accommodate:
